

KONICA MINOLTA

Press release

Discover
The power of print

ExCeL, London
24th - 29th March 2014

Nieuwegein, February 2014

Konica Minolta Sensing to exhibit at IPEX 2014 its solutions for the safe and precise communication of colours to demonstrate Konica Minolta's competence in the area of precise colour measurement and communication. Visit Konica Minolta's business zone theatre (Stand N1 C 130) from March 24 through 29 at the ExCeL space in London.

THE HIGHLIGHTS

Print Production Server (PPS)

A new Colour Management and Workflow Solution for multiple printing technologies enabling Fogra PSD® compliant printing. PPS drives multiple output devices with different technologies achieving highest colour accuracy and consistent print products.

Software basICColor catch calibrate

Calibrating an offset press to the new ISO 12647-2 like never before. Catch calibrate enables the calibration of an offset press as easy as possible. Solid coloration and CTP curves are determined with a specialized test form. Using the Konica Minolta FD spectrophotometers, the new M1-based PSO targets can be achieved with ease.

Colibri®: One software platform for the global color supply chain

Manage and control brand colours throughout the supply chain from design, specification, matching and quality control with a single software platform fully scalable to suit any enterprise requirements.

All solutions use the superior quality of Konica Minolta's FD series spectrophotometers to enable highest colour accuracy.

KONICA MINOLTA

About Konica Minolta Sensing Europe B.V.:

Konica Minolta Sensing Europe B.V., part of Konica Minolta Inc. Japan, Optical Business, is a leading provider of measurement solutions for applications in the fields of Colour & Appearance and Light Measurements. Konica Minolta Sensing Europe serves the industry in the EMEA region with Branches and Distributors in more than 30 countries. Derived from our state-of-the-art optical and image processing technologies, measuring solutions from Konica Minolta Sensing help improve quality control and support R&D in a wide variety of industries.

Our colour management solutions are essential to control and monitor quality in many areas of manufacturing, such as automotive, coatings, plastic, construction materials, food, chemicals and pharmaceuticals. In the innovative area of Light & Display technology, Konica Minolta Colour Analysers enjoy an „industry standard,„ position. Konica Minolta Sensing will continue to innovate, utilising the latest high-accuracy sensing technology providing solutions that meet the ever-changing needs in diverse fields.
