# FD-9 AutoScan Spectrophotometer

## Fast, Accurate, Efficient, Automated

Konica Minolta's latest innovation in print colour management, the FD-9 AutoScan Spectrophotometer, an automated solution for profiling one or many output devices.

FD-9 with Auto Sheet Feeder Accessory

## HALL 7a STAND F20

See for yourself how Konica Minolta can make your print more accurate and more efficient.

Niall Coady of our UK partner MyPressXpert will be on the stand presenting extended demonstrations of the FD-9, discussing real world experiences, and answering questions.

**10-11 AM**

**May 31<sup>st</sup>, June 1<sup>st</sup>, 2<sup>nd</sup>, 6<sup>th</sup>, 7<sup>th</sup> & 9<sup>th</sup>**

Please contact [ncoady@mypressxpert.com](mailto:ncoady@mypressxpert.com) if you would like to arrange a specific demo with applied test files.

## Also on the Stand

### ColorCare Server:

The ultimate solution for color management in a digital print production environment.

### Colourscout A+:

The ColourscoutA+ can use a regular spectrophotometer to create profiles for non-standard materials such as foils & mesh.

### Colibri:

Learn how the Colibri CCM system is used by brands to achieve consistent colour to printed goods and physical product.
